### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is claims 4-6 and 10-12 are drawn to a method for treating a keratoconjunctival disorder comprising administering a therapeutically effective amount of 5-[4-(6-methoxy-1-methyl-1H-benzimidazol-2-ylmethoxy)benzyl] thiazolidine-2,4-dione or a pharmaceutically acceptable salt thereof. The closest prior art is Fujita Takeshi et al. (JP 2001-039976), which discloses compound, which is similar to that of the instant invention thiazolidine-2,4-dione derivatives useful for the treatment of diabetic complications and for the treatment of insulin resistance associated with hyperglycemia, glucose tolerance insufficiency, hyperlipemia, pregnancy diabetes and polycystic ovary syndrome. However there is no teaching or suggestions in the prior art for the treatment of keratoconjunctival disorder for the claimed compound of the instant case.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
